

ARYAN GOSWAMI

Nagrota Bagwan, Himachal Pradesh, India | +91-7876664530 | aryangoswami022k4@gmail.com | linkedin.com/in/aryan-goswami-6b0014324 | github.com/Aryan2k4 | leetcode.com/Aryan2k4

PROFESSIONAL SUMMARY

Computer Science undergraduate with strong fundamentals in data structures, algorithms, and object-oriented design (200+ LeetCode problems solved). Builds full-stack, production-style systems independently, including REST APIs and distributed, multi-tiered backends, with automated testing and Git/GitHub-based CI/CD workflows. Comfortable taking ambiguous, open-ended problems from concept through to a working, tested, deployed system.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, C++, SQL

Core Computer Science: Data Structures and Algorithms, Object-Oriented Design, Complexity Analysis, System Design

Backend Development: REST API Design, FastAPI, Node.js, Distributed and Multi-Tiered Systems, Clean Architecture, Automated Testing

Frontend Development: React, TypeScript, REST API Integration

AI and Machine Learning: LLM Pipeline Design (Google Gemini, Groq LLaMA 3.3-70B), Prompt Engineering, Feature Engineering, Model Evaluation

Databases and Infrastructure: PostgreSQL, SQLite, Supabase, SQLAlchemy, Git, GitHub, CI/CD, Linux, Postman

EDUCATION

Atal Bihari Vajpayee Government Institute of Engineering and Technology, Shimla, HP Aug 2023 - May 2027

Bachelor of Technology, Computer Science and Engineering | CGPA: 7.79 / 10.0 (5 Semesters)

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, System Design

EXPERIENCE

Artificial Intelligence Virtual Intern, Infosys Springboard 7.0, AI Track (Remote) Jul 2026 - Present

National Cohort

- Selected from a competitive national applicant pool after clearing a video-proctored technical assessment; completed an AI-track cohort covering supervised and unsupervised machine learning, deep learning, natural language processing, and computer vision with benchmarked capstone evaluations.
- Built end-to-end model development pipelines, applying feature engineering, model training, and evaluation metrics aligned with production engineering practices.

PROJECTS

AG-ASE-2026 - AI Software Engineer (Idea-to-Blueprint Pipeline) May 2026 - Present

React 18, TypeScript, FastAPI, Python 3.12, Pydantic v2, Supabase, Google Gemini API

- Sole engineer of a 7-stage LLM pipeline that transforms a one-sentence product idea into a 9-section engineering blueprint, using production-grade Clean Architecture (routers, services, repositories) across a distributed, multi-tiered stack (React, FastAPI, PostgreSQL via Supabase).
- Shipped REST APIs for an export and sharing subsystem (Markdown, PDF, JSON export, async status via Supabase Realtime, tokenized share links) with advisory-lock concurrency control, validated by 174 passing automated tests.

ARYA ResumeIQ - AI Resume Analysis Engine Jun 2026

FastAPI, React, TypeScript, SQLite, SQLAlchemy, Groq LLM (LLaMA 3.3-70B), pdfplumber, JWT

- Sole architect of a production-grade AI resume analysis platform; built a REST API backend handling PDF and DOCX parsing and feeding a multi-dimensional LLM scoring pipeline.
- Engineered a 5-dimensional ATS scoring engine (readability, structure, keyword density, formatting, and ATS score 0-100) with job description keyword-match detection across 8 engineering roles.

ARYA InterviewMate - AI Mock Interview Platform Jun 2026

React, TypeScript, FastAPI, SQLite, Groq LLM (LLaMA 3.3-70B), JWT, Vercel, Render

- Built an adaptive interview simulation platform with a REST API backend generating role-specific technical, behavioral, and situational questions, backed by a 5-axis real-time scoring pipeline and instant AI feedback.
- Deployed a full-stack production build (Vercel frontend, Render backend), handling authentication end-to-end with JWT and testing across the deployment pipeline.

CERTIFICATIONS AND ACHIEVEMENTS

- Oracle Agentic AI Certified Foundations Associate (Jul 2026)
- Oracle Cloud Infrastructure (OCI) 2025 Certified Generative AI Professional
- 200+ LeetCode problems solved: arrays, trees, graphs, DP, sliding window, two pointers
- freeCodeCamp: Responsive Web Design, Scientific Computing with Python | IIT Bombay: Python 3, C++ Programming
